***Sensodyne Pronamel Intensive Enamel Repair** is proven to **drive minerals deep** into the enamel surface to help **actively repair** acid-weakened areas of the enamel, for stronger, better-protected teeth.

PRONAMEL ACTIVELY REPAIRS WEAKENED ENAMEL

LOCKS IN MINERALS

FOR STRONG HEALTHY TEETH

Acids in modern diets can weaken your enamel surface. Over time, this can lead to your enamel thinning, allowing the yellow dull dentin layer underneath to show through. Once your enamel surface is weakened it needs extra care for the future.

With twice-daily brushing, Sensodyne Pronamel Intensive Enamel Repair helps to:

- Actively repair acid-weakened enamel
 - Lock in minerals to protect against the effects of acid wear
 - Protect against cavities
- Sensodyne Pronamel Intensive Enamel Repair is suitable for sensitive teeth.

Save Water
Turn off tap while brushing

Drug Facts

Active ingredients

Potassium nitrate 5% Antihypersensitivity
Sodium fluoride 0.25% (0.15% w/w fluoride ion) Anticavity

Uses

- builds increasing protection against painful sensitivity of the teeth to cold, heat, acids, sweets, or contact.
- aids in the prevention of dental cavities.

Warnings

Stop use and ask a dentist if

- the problem persists or worsens. Sensitive teeth may indicate a serious problem that may need prompt care by a dentist.
- pain/sensitivity still persists after 4 weeks of use.

Keep out of reach of children. If more than used for brushing is accidentally swallowed, get medical help or contact a Poison Control Center right away.

Purposes

Antihypersensitivity
Anticavity

Drug Facts (continued)

Directions

- **adults and children 12 years of age and older:**
 - apply at least a 1-inch strip of the product onto a soft bristle toothbrush.
 - brush teeth thoroughly for at least 1 minute twice a day (morning and evening), and not more than 3 times a day, or as recommended by a dentist or doctor. Make sure to brush all sensitive areas of the teeth. Minimize swallowing. Spit out after brushing.
- **children under 12 years of age:** Consult a dentist or doctor.

Other information

- do not store above 25°C (77°F)

Inactive ingredients

water, sorbitol, hydrated silica, glycerin, PEG-8, sodium lactate, flavor, cocamidopropyl betaine, titanium dioxide, xanthan gum, sodium saccharin, PVM/MA copolymer, sodium hydroxide
